Purely Business!

The columns of a newspaper represent a cash value. No publisher can afford to give advertising "notices" free any more than a merchant can give his customer free gifts of dry goods or shoes. A newspaper is a business enterprise. Its columns are its stock in trade, and its advertisements should be paid for, no matter in what part of the paper they appear.

Lee-Gaither.

Union of Two of Mason County's Oldest and Most Respected Families.

The Ledger extends its heartiest congratulations to the young pair of lovers who have united their fortunes in the journey through life by the sacred pledge of matrimony, solemnized at the hospitable home of the bride's father, Mr. R. H. Gaither of Lewisburg, this county, on September 15th, on which occasion Mr. Charles G. Lee, oldest son of Mr. John G. Lee, took to wife Miss Lena Mae Gaither, the charming daughter of one of Mason county's most estimable and prosperous citizens.

The young couple by this union unite two of the oldest and most respected families of the county, and their nuptial took place under the most auspicious as well as happy circumstances.

The hospitable and substantial home of the bride's parents was the scene of one of the old-time joyous weddings which this Ledger loves to remember and refer to. The country side was there--fathers, mothers, boys and girls--to smile on this happy union of two young souls, and to wish them a blissful journey up and down the hill of life.

That fine, Christian gentleman, the Rev. M. B. Adams of the Baptist Church of Lewisburg, in his impressive and graceful way, solemnized the marriage, and as the ordained minister of Him who hath made marriage a holy sacrament, enriched the young couple with the blessings of his office.

The Ledger joins in the generous felicitations of the host of friends of the contracting parties and flings its shower of rice after the happy couple as they face the future as man and wife.

Printers, like other people, have to eat--sometimes. That is, if they can get the material. But they can't get the material without money--unless someone gives it to them. Now, if you own the Printer, he will gladly accept of a few country hams, a bushel or two of potatoes, or most any old thing that comes from the farm--and will give full credit at market prices. See!

The Mt. Sterling Advocate says: Mr. Gus Sullivan of this county is a watermelon raiser. In this business he was educated in the county of his nativity, Mason. The melons are large, fresh and delicious. Each morning he can be found with a wagon load in front of Trimble Bros' store, and in the afternoon on Maysville street along side of J. B. Tipton's drugstore. Those who try his melons will have no others.

The Dover News says: "Miss Anna Martin of Maysville, assisted by local talent, gave a most delightful rendition of music at Germantown during the week of the Germantown Fair. Miss Martin is an accomplished musician and highly entertains her audiences. She informed The News that she would visit Dover in the near future and give one of her delightful entertainments, which, no doubt, will be highly appreciated by our citizens."

KICKERS' CORNER

If any one at any time for any reason has any cause to "kick" in any way at anything of any kind, here's the place to say his say. The door is open--walk right in and help yourself, free gratis and for nothing--but don't make your "kick" too long--it's the short, quick yell that counts--and out.

But the name of the kicker must accompany the kick, or it'll be kicked into the waste-basket.

Well, you just had other take a squirt at the Fountain Esplanade since it's "broke out."

It is in order to raise the yellow flag on the Fountain Esplanade. It has a well-defined case of smallpox.

The Cincinnati contractor for the Market Street Esplanade ought to ship a carload of putty here to putty up the holes in that beautiful (?) job.

FAIR NOTES.

Some of the Attractions The Maysville Fair Offers to Patrons.

The celebrated Tussock Ladies' Military Band has been engaged to play during the Maysville Fair. Bands from surrounding towns have signified their intention of being present also. Old Maysville will certainly present a festive air during Fair week.

Today we are able to announce the special feature for Wednesday, the first day of the Fair. Always keep in mind the emphasized and all-important information that this and similar features are in addition to the regular program, consisting of a gigantic Wild West Show, with all the thrilling characteristics of life among the Indians, cowboys, &c., a grand Balloon Race between expert aeronauts, dropping from the clouds simultaneously, holding to parachutes; a High Tower Dive, a Green Horse Race, mixed, pacers and trotters contesting, which have never been tracked nor have a record, owners to be done. Wednesday afternoon between 3 and 4 o'clock the contest among local Nimrods will be on, a fee of \$2.50 to enter, the amount forming a pool which goes to the one breaking most clay pigeons, money to pay for all pigeons. Two or three such contests will be had and the sport of watching expert shots fire the gun for the proud distinction of being champion has aroused no little comment and enthusiasm. Anyone can enter, and the chances are most favorable for an exciting time. Judge A. A. Wadsworth has consented to superintend the contests, the American Gun Club rules governing. The admission price is 25 cents. No extra charge for the pleasures which will run high for four days, beginning Wednesday, September 22d, running till Saturday, the 25th.

When you get the ladies interested in anything, why then you've chained success and the following such a catch brings means entire satisfaction to all concerned. A move is on foot by several parties of hospitable women to return to the social amenities which characterized the period in early history of which you read but seldom now witness. They have concluded to give all day parties, taking out big dinners, inviting relatives and friends in to the country to partake thereof and making of our Fair the success it deserves. This shows the right spirit, and we congratulate the generous, noble hearted women of our city who, thus taking the initiative, are pulling might and main for our Fair. Are you one of this class? If not, why don't you get among your acquaintances and promote the idea to a determination tangible, practical and active? Your little effort can do much towards swelling the crowd, and the satisfaction of this doing some thing will greatly please you. There are many ways you can enjoy a whole day at our Fair. The Floral Hall will, of course, be the focusing point, and the sights therein displayed will entertain, instruct and amuse you. In one department alone--that of embossing--enough really rare and costly work has been entered to give you food for enjoyment for a long time. No entrance fee is charged for anything exhibited in the Floral Hall, whether it contests for a premium or not. All is free, absolutely.

"MAN'S BEST FRIEND."

A Call For Some One To Do Justice to a Much-Abused Animal.

Times-Star. There are humane societies by the thousand that provide comfortable homes for dogs, but not one of them has ever advocated the only thing necessary to the dog's existence--his rights before the law as personal property. A man cannot kill your chickens or hogs without being compelled to pay suitable damages, but he can stand in a highway and shoot down your dog in pure wantonness without breaking any law. The dog is often subject to a double tax, yet in law he does not exist. The injustice of this is keenly felt by all who love the noble qualities of the dog and his companionship. What legislator will be the dog's first champion?

OUR WASHINGTON MAN.

THE LEDGER'S SPECIAL LETTER FROM THE CAPITAL.

Special Correspondence Public Ledger.

WASHINGTON, September 17, 1907.

Reports of business improvement continue to come in from every direction and business men from all parts of the country are in the East buying their fall stock, and some of them stop over in Washington en route with good news of activity, good prices, mortgages being paid off, and a marked change in the views of the people.

"You could not realize what a change has come over the people," said one gentleman who had just come from the Pacific coast. "I came through that Great Western country, where the Free Silver epidemic was raging at this time last year, and was absolutely astonished at the change. The demand for the free coinage of silver has disappeared, and thousands of men who advocated it a year ago now admit that they were wrong. Tens of thousands are indicating their gratification that it failed, and I did not hear of any who regretted his vote for McKinley, Sound Money, and Protection."

"What has brought this change in so short a time?"

"Improved business conditions, improved confidence, improved wages and improved prices. They have all come steadily since the election of McKinley and especially since it became known that a Protective Tariff Law would be promptly passed, and have come in the face of a steady fall in the value of silver. This fact shows to even the most unthinking that they were being imposed upon last year by the statement that Prosperity could only come through the free and unlimited coinage of silver and has thoroughly disgusted them. I never saw so sudden a change in so short a time."

"But the silverites say that the high price of wheat is due to the shortage abroad and that the silver question has nothing to do with it."

"On the same theory it might be argued that the low price was due to the surplus abroad, and that the silver question had nothing to do with that, and that is just about the truth of it, too. But it is not the advance of wheat alone that concerns them; the hand-in-hand-with-silver theory was a bung. They find undoubted proof of this in wheat, which is a great staple with them in Ohio. Wheat has advanced 10 per cent. in the past year, and yet silver has fallen meantime. And there is no excuse for the statement that this advance is due to a false foreign demand. The wool of this country is consumed at home. This country has been within the past few months jammed full of wool, and yet the price of our product has advanced 50 per cent. in the face of this large supply and also in the face of the fall in silver. How do you account for this? Simply because silver has nothing to do with it, but Protection, Prosperity, and home manufacture have everything. And the people are seeing it, and are seeing how nearly they came to being made monkeys of in last fall's election."

CRUELTY TO ANIMALS.

Citizen Dave Daley This Morning Fined For Torturing a Dog.

It has been a long time since any good citizen of Mayville has been punished for cruelty to animals.

But this morning Judge Wadsworth got in his own on one Dave Daley to the amount of \$15.00, which he will pay by boarding at the expense of the taxpayers.

Yesterday afternoon Daley was driving down Third street at a lively gait, having a dog tied behind his "cart."

The poor animal was being choked so that it could only now and then emit a yelp indicating its misery, and while a number of citizens observed the cruel treatment Daley was wholly unmindful of the dog's cries.

Daley is a citizen with a savory reputation; and when the Court pronounced judgment he expressed great gratification that he would be given a place in Jail where he could get something to eat and a place to sleep at the public expense.

THE SECOND DAY

Of the Trial Against Dr. Hunter Characterized by Sensational Perjury by Some One.

FRANKFORT, Ky., Sept. 18.—The second day of the trial against Dr. Hunter et al. was characterized by sensational perjury by some one. Dr. W. Godfrey Hunter, perjured himself, and J. Wilson and Deputy Collector E. T. Frank on the one side, and Capt. Noel Gaines, Thos. F. Tanner on the other side, looked on from the side and swore to directly contradictory statements about what they saw.

"You could not realize what a change has come over the people," said one gentleman who had just come from the Pacific coast. Tens of thousands are indicating their gratification that it failed, and I did not hear of any who regretted his vote for McKinley, Sound Money, and Protection."

"What has brought this change in so short a time?"

"Improved business conditions, improved confidence, improved wages and improved prices. They have all come steadily since the election of McKinley and especially since it became known that a Protective Tariff Law would be promptly passed, and have come in the face of a steady fall in the value of silver. This fact shows to even the most unthinking that they were being imposed upon last year by the statement that Prosperity could only come through the free and unlimited coinage of silver and has thoroughly disgusted them. I never saw so sudden a change in so short a time."

"But the silverites say that the high price of wheat is due to the shortage abroad and that the silver question has nothing to do with it."

"On the same theory it might be argued that the low price was due to the surplus abroad, and that the silver question had nothing to do with that, and that is just about the truth of it, too. But it is not the advance of wheat alone that concerns them; the hand-in-hand-with-silver theory was a bung. They find undoubted proof of this in wheat, which is a great staple with them in Ohio. Wheat has advanced 10 per cent. in the past year, and yet silver has fallen meantime. And there is no excuse for the statement that this advance is due to a false foreign demand. The wool of this country is consumed at home. This country has been within the past few months jammed full of wool, and yet the price of our product has advanced 50 per cent. in the face of this large supply and also in the face of the fall in silver. How do you account for this? Simply because silver has nothing to do with it, but Protection, Prosperity, and home manufacture have everything. And the people are seeing it, and are seeing how nearly they came to being made monkeys of in last fall's election."

CRUELTY TO ANIMALS.

Citizen Dave Daley This Morning Fined For Torturing a Dog.

It has been a long time since any good citizen of Mayville has been punished for cruelty to animals.

But this morning Judge Wadsworth got in his own on one Dave Daley to the amount of \$15.00, which he will pay by boarding at the expense of the taxpayers.

Yesterday afternoon Daley was driving down Third street at a lively gait, having a dog tied behind his "cart."

The poor animal was being choked so that it could only now and then emit a yelp indicating its misery, and while a number of citizens observed the cruel treatment Daley was wholly unmindful of the dog's cries.

Daley is a citizen with a savory reputation; and when the Court pronounced judgment he expressed great gratification that he would be given a place in Jail where he could get something to eat and a place to sleep at the public expense.

PENSION MONEY.

A Deficiency Appropriation May Be Asked For.

Estimated Total Payment for 1907 Will Not Exceed \$147,500,000.

There are 300,000 Old Claims Still Pending. Will Will Be Adjusted as Soon as Possible. New Provisions for Cashing Stamps—Robinson to It.

WASHINGTON, Sept. 18.—Commissioner Evans, of the pension bureau, said Friday that he thought it would be necessary this year to ask congress for a deficiency appropriation on account of pensions. He said:

"I estimate that the total payments for the year will not exceed \$147,500,000, and the appropriation for the year is \$141,300,000. If there should be an unusual increase in the revenues, the pension payments might be curtailed toward the end of the year, although I do not think that it is at all likely."

The increased pension payments, he said, would be due chiefly to the fact that there are about 300,000 old claims pending which is the intention of the bureau to adjudicate as rapidly as possible. The claims would probably would call for something like \$3,000,000. There also had been a remarkable increase in the number of new pensions granted, and these would also increase expenditures largely. In answer to a suggestion that there might be a deficit in the treasury at the end of the fiscal year, the commissioner said that he had examined into the matter somewhat and was of the opinion that there would be no deficit. The increase in the revenues before the year was over to prevent a deficit.
